

Graber Post Buildings Inc.

Laminated Column Warranty

Graber Post Buildings Inc. proudly offers this **50 YEAR WARRANTY** against rot, decay, or insect damages on our GPB Nail-Lam columns. Graber Post Buildings Inc. uses only #1 Southern Pine Lumber supplied by treating facilities which adhere to strict third party inspection practices. All standard columns supplied by GPB have been treated to a total absorption of at least .60 pounds of CCA-C preservative per cubic foot of wood. (.08 treatment is available upon request and carries the same warranty.)

Not all treated suppliers of treated materials adhere to the strict guidelines that are required by all treating facilities that supply treated material to Graber Post Buildings Inc.. All of our suppliers are required to be inspected by a Third Party Testing Agency. This requires the treater to submit a core sampling of each and every "charge" to ensure the proper chemical retention is achieved. Certificates of treatment are available upon request.

This warranty covers the replacement of the laminated column material only, and is non-transferable from one owner to the next. It does not include any other cost such as labor to replace, loss of service, damage to structure. etc..
